

# Frog Friend

Mouth

Body

## Frog Friend Instructions

1. Cut out two Frog Body shapes.
2. Glue the pieces of felt together along the edges to make your frog's body. Leave the area between the frog's front legs unglued.
3. Stuff the frog's belly with fiberfill or cotton balls.
4. Use the Mouth shape to cut a 2 x 3 inch oval out of red card stock. Fold the oval in half and apply glue along the outside edge. Place oval between the frog's two front legs to make the frog's mouth. Hold the mouth in place with paper clips until the glue dries.
5. Glue two pom-poms on the top of the frog's head to make eyes. Glue a googly eye on the front of each pom-pom.
