Helpful Things to Take Along
☐ Colored pencils or markers and paper
☐ Magnifying glass
☐ Field guide on rocks (if you want)

ROCK #1
Where did you find it?
__________________________________________________________________________
__________________________________________________________________________
Draw and color it.

Look at the rock with a magnifying glass.
What do you see?
__________________________________________________________________________
__________________________________________________________________________
What kind of rock do you think it might be?
Use a rock guide to help you, if you have one.
__________________________________________________________________________

ROCK #2
Where did you find it?
__________________________________________________________________________
__________________________________________________________________________
Draw and color it.

Look at the rock with a magnifying glass.
What do you see?
__________________________________________________________________________
__________________________________________________________________________
What kind of rock do you think it might be?
Use a rock guide to help you, if you have one.
