

Raccoon Glasses

Instructions:

1. Cut out the three pieces: a mask and two stems.
2. Cut out two eye holes as shown on the mask.
3. Cut two side slits in the mask as shown. Slide the stems through each slit. Fold over the edge of each stem. Tape in place.
4. Try on your new raccoon eyes!

TIP: Make these glasses sturdier by gluing the pattern to a thin piece of cardboard before cutting.
