

# LEAF BY LEAF

When autumn comes and leaves begin to fall,  
take a walk in the woods and have some leafy fun.

## Keep a Record!

Date \_\_\_\_\_ Time \_\_\_\_\_

Location \_\_\_\_\_

Weather \_\_\_\_\_

## Helpful Things to Take Along

Crayon or pencil

Magnifying glass

Use the spaces below to make leaf rubbings of two leaves, each from a different tree species. Put each leaf under this paper. Rub over it with a crayon or pencil.

LEAF 1	LEAF 2

## TAKE A CLOSE LOOK

1. How are the two leaves the same?
2. How are the two leaves different?
3. Look at one leaf under a magnifying glass.  
What do you see that could help water and food move through the leaf?

(ANSWER ON THE BACK OF THIS PAPER)
