Mother’s Day Card

Instructions:

1. Make three accordion folds in the 5”x15” piece of paper so you have four panels.
2. Use this pattern to cut two flowers out of the other piece of construction paper.
3. Write a message on the card. (We suggest you write the message in pencil and ask your child to trace over it with marker.)
4. Draw a stem with marker.
5. Glue the flowers onto the card. Use pom-poms and markers to make the center of the flowers.

Note: After cutting the flowers out of construction paper, use the dashed lines, on this pattern, to fold the flowers for added dimension.
