

Skeleton Paper Doll

Body

Head

Arm (cut 2)

Leg (cut 2)

What You Do:

1. Use the pattern to cut the six body shapes out of construction paper.
2. Cut strips of white paper that are different lengths and widths.
3. Glue the strips onto the body shapes to make your skeleton. Start with the backbone. Add ribs. Then add arm and leg bones.
4. Cut out a picture of your child's face and glue it onto the head shape.
5. Use brads to attach the six body shapes together.
