

# BIG CATS

## Zooworks®

Fierce is the lion, he prowls and roars.  
 Strong is the lion, king of the jungle he controls.  
 Pounce goes the lion  
 He doesn't mess around.

By Abby Z., age 10

Leah Z., age 11

The wind blows south playfully  
 Away from the famished cheetah,  
 Who stalks the calm gazelle,  
 Unknowing of danger,  
 Most animals could not spot,  
 The camouflaged cheetah behind tall grass,  
 Planning her move to win a tasty prize.  
 Swiftly and silently,  
 The cheetah pounces,  
 The startled gazelle notices too late,  
 And the cheetah had already won the battle,  
 To fill her hungry tummy.

By Anne H., age 10

 age 10

Logan T., age 8

Harley F.,  
 age 9

Big cat over there  
 Stalking not walking,  
 no need to share  
 Licking his paws with jaws  
 Looking at the squirrel.

Pounce, got 'em under paws  
 Going to show his family  
 carrying in jaws  
 Goes to door shows family  
 With lots of pride.

Decides to leave him there  
 Then jumps into air  
 Goes lays on grass  
 Purring with pride.

for  
 even more  
 fun!

## Look for Activity Pages Online!

Visit [rangerrick.org/ZBactivities](http://rangerrick.org/ZBactivities) to  
 find fun big cat activities to  
 print or download.

Plus at [rangerrick.org](http://rangerrick.org) you'll find:

- Interactive games
- 50 pictures, poems and stories from kids like you
- Animal videos

Would you like to see your  
 work published in  
**Ranger Rick Zoobooks?**

Here's what to do: Go to  
[www.rangerrick.org/zooworks](http://www.rangerrick.org/zooworks) for  
 rules and deadlines.

We want to see your  
 original poem, story, or  
 drawing by March 20, 2024  
 for "Snakes" or April 23, 2024  
 for "Seals & Sea Lions."

# A CAT in the FOLD

Did you know that there is an art form in which paper is folded to create different figures? It is called **origami**, and it started in Japan. Follow the nine steps around this page to create an origami jaguar. Practice with 5-inch squares of paper. Then, use the spotted paper on page c.

## Origami Key

- Fold you will make this step
- Crease made by previous fold
- Edge of paper

- 1** Place patterned side down. Fold square in half, as shown by the dashed line. The arrow shows the direction of the fold you will make for this step.

- 2** Unfold and fold in half the other way, as shown by the dashed line. (Thin solid line shows crease of first fold.)

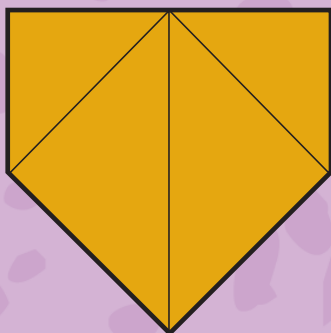

- 3** Leave folded in half once. (The patterned side should be on the outside.) Fold down the top corners, as shown by the dashed lines.

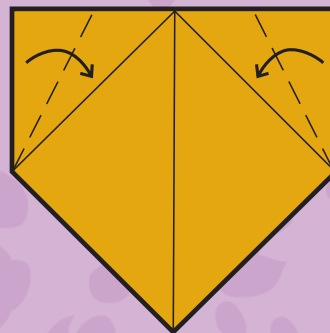

- 4** Unfold the top corners. Now fold in the top corners, as shown by the dashed lines.

- 5** Turn the entire origami figure over. Leave the top corners folded in.

- 6** Fold down the top left corner to the first crease line on the left. Repeat for the right side. The location of the folds is shown by the dashed lines.

- 7** Unfold the flaps that are to the back of the origami figure. In the example, the left side is still folded; the right side is unfolded. Notice how the right side creates the cat's right ear. Do the same with both flaps.

Your finished origami jaguar will look like this.

- 8** Fold the top layer inside on the dashed line. You will be making the top lip. In other words, poke the bottom corner inside the mouth and fold to form a lip.

- 9** Fold the bottom layer inside on the dashed line. You will be making the bottom lip.

# HOW TO DRAW A BIG CAT

**H**ave you ever wondered how to draw a lion that looks like a lion? The answer is quite simple. Look for the main shapes of the animal and begin by drawing them. Once you have these shapes down, you can begin to add details.

In the four sketches below, we have broken down the steps for drawing a noble lion. Notice that in the first step, you simply draw the main shapes. In the second step, you draw lines for the

legs, neck, and ear. You add lines for the feet, tail, and eye in the third step. When you put all the pieces together in the fourth step and add a few details, a lion will appear on your paper.

Now try your paw at drawing by applying the four steps below. Practice on scratch paper. Then, create your own noble lion. Remember, if you can draw a rectangle and an oval, then you can draw a lion.

**STEP 1**

**STEP 2**

**STEP 3**

**STEP 4**
