A Noble American Symbol

The eagle is a noble bird. For many people, it represents strength and honor. Because of this, the founders of the United States decided to make the bald eagle our national bird. As a result, an eagle appears on many national symbols and documents.

One of the most important national symbols is the Great Seal of the United States. A drawing of this seal appears at right. It symbolizes the sovereignty of the United States. The U.S. government began using the seal on June 20, 1782, to prove the authenticity of documents.

Along with the eagle are several other symbols on the seal. How many of the symbols listed in the box below can you find on the Great Seal of the United States? Color the symbols as you find them.

Symbols in the Great Seal

- ★ An eagle with a shield represents self-reliance. Color the eagle gold, leaving the head and tail white. Color the band across the top of the shield blue.
- ★ 13 stars and 13 stripes represent the 13 original states. Color 7 red stripes and 6 white stripes.
- ★ An olive branch with 13 leaves and 13 olives stands for peace. Color the branch green and brown.
- ★ 13 arrows stand for America's ability to defend itself. Color a black arrowhead on each arrow.
- ★ The words E PLURIBUS UNUM mean "out of many (states) one (nation)." Color the banner with the words yellow.
- ★ A circle of stars breaking out of a circle of clouds represent glory. Color the background behind the stars blue.

An American Scene

Draw a bald eagle in its natural habitat.
